Nevada Department of Education Office for a Safe and Respectful Learning Environment

School Climate and Social/Emotional Learning
Social Worker Grant Application

Churchill County School District
Churchill County High School

Churchill County Middle School (CCMS) is a part of Churchill County School District (CCSD) which is located in Fallon, Nevada. Fallon is a rural community 60 miles east of Reno. The community's largest industry is agriculture. It is also supported through industries such as energy generation, the Fallon Naval Air Station and light manufacturing businesses. Approximately 25,000 people live in Churchill County and the district currently serves 3,396 students enrolled in grades PreK-12. The district is comprised of six schools: one early childhood center, three elementary schools, one middle school and one high school.

The majority of students in attendance at CCMS are White (64%). About one- fifth of the school population is Hispanic (21%), and the remaining race/ethnicty groups are represented as follows: Two or More Races (6%), American Indian or Alaskan Native (5%), Asian (1%), Black or African American (1%), and Native Hawaiian or Other Pacific Islander (1%). A little over one-half (51%) of the students enrolled in CCMS are qualified as low socio-economic status (FRL), 7% are qualified as English Learners (ELs), and the school supports 14% of the student under the guidance of an Individualized Education Plan (IEP).

It is difficult to associate quantitative data to the profound need that exists at CCMS for a social worker or other mental health professional as CCMS is currently limited in access to this type of data. CCSD's administration, however, recognizes the critical need to capture such data, and has therefore made it an absolute high priority to have CCMS students take the Nevada School Climate/Social Emotional Learning Survey as soon as the opportunity was presented.

The addition of a social worker or other mental health provider to the CCMS staff will be a valuable resource in analyzing the survey data and in helping the school utilize the data as it works to develop and implement a school wide system that promotes the academic mission of the school(s) by fostering educational environments that are safe; have supportive, fair, and responsive policies; and emphasize early intervention and positive behavior interventions (NASW Standards for School Social Work Services, 2012).

Further, this person will work as a liaison between the Nevada Department of Education's Office for a Safe and Respectful Learning Environment and the school, thus ensuring that the school *establishes* bully prevention programs, social and emotional learning instruction, positive behavior interventions and supports coaching (Office for a Safe and Respectful Learning Environment, 2015) in alignment with federal, state and local directives and in a manner that best supports students, families and staff.

In 2011-12, CCMS was designated as a Year-4 In Needs of Improvement school. In 2013-14, just three years later, the school established, and has maintained, itself as a 4-Star school. The CCMS learning community is committed to, and has proven to be capable of, effective and progressive improvement of the school. It values, and is committed to, a safe and positive environment for learning. Unfortunately the district has experienced a declining enrollment over the past several years and budgets and positions have been cut to adjust. Many of the core classes CCMS offers have more than 30 students in a class, and there is only one counselor and two administrators on staff to support all 708 students. This makes it very difficult to effectively offer the services and support to students, families and staff.

Tragically, last year, CCMS lost a student to suicide. This tragedy led three other students to either give serious consideration to, or actually attempt, suicide. The school is also dealing with student pregnancy, bullying, weapons, drugs and the other serious issues on a weekly basis. There are 16 students qualified as homeless currently attending CCMS. It has many of the same issues experienced by students at the larger, urban middle schools, with very limited access to resources due to the size of our community, limited staff and the constraints of the budget.

CCMS administration is working diligently to address student attendance issues at the school. The school holds monthly Student Attendance Review Board (SARB) meetings to meet with parents regarding the attendance issues. Many times, these cases are forwarded to social services for educational neglect due to the lack of parent participation at the meetings.

With the new bullying legislation, the two administrators have taken on overseeing the investigation and reporting of all bullying allegations. In addition, the one counselor is responsible for managing all schoolwide testing as well as working with students on one to one issues, small groups, schedules, distance/online education and numerous other counseling duties. Due to the tremendous amount of students' needs, and lack of human resources, a school social worker will have a huge impact on our students' education and social /emotional well being.

SECTION IV ASSURANCES

The undersigned provides the following assurances:

- 1. Through training, professional development and collaboration all Social Workers and Mental Health Professionals are subject to abiding by the theory of action and mission statement of the Office for a Safe and Respectful Learning Environment.
- 2. The funding will be utilized to fund the mental health professional. The funds will not be used for any other purpose.
- 3. The schools and districts funded will administer that Nevada School Climate/Social and Emotional Learning Survey in the spring annually.
- 4. The district will submit data as requested for the required annual report.
- 5. If it is determined that a school or district is not implementing the programs or services for which it received money, or does not meet performance levels, a plan of corrective action will be developed and implanted that results in meeting the requirements and/or performance levels.
- 6. Any remaining balance of funds will not be committed for expenditure after June 30, 2016, and will be reverted to the State General Fund after all payments of money committed have been made.
- 7. Districts will submit an annual Financial Report.
